

# TRANTEX MODEL 360MII

## THERMOPLASTIC APPLICATOR

Introducing the  
second generation  
Trantex Handliner  
360MII

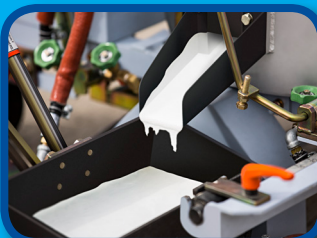

Shown with Optional Double Drop Bead System

Unique lever allowing operator to raise and lower the pointer eliminates the need for second person assist when approaching curbs or other obstacles.

Industry leading all steel extrusion dies with quick change capability. In addition to our unique push/pull mechanism that eliminates the use of die springs. You can now change dies without the use of any tools in seconds.

Optional 2nd color tank and bitumen tank can be swapped in seconds. The 360M works as three machines in one!

The second generation of the market-changing **360M thermoplastic handliner** is here. With existing Trantex innovations like heavy weight STEEL dies, no die springs, removable tanks for color change, direct drive bead dispense, the 360M has long been the tool of choice for professional thermoplastic applicators. **The new 360MII** has over *twenty* new additional innovative refinements and improvements that will further improve performance, enhance safety, and reduce manpower requirements. Our proven and precise all steel extrusion dies do remain unchanged and continue to offer full adjustability, producing razor sharp lines. Trantex dies are available in various line widths from 4" to 24" with double 4" and 6" configurations.

### 360lb. Material Tank Capacity

- Removable / Interchangeable for fast color change
- Standard Auger agitation

### All Steel Extrusion Dies

- Superior Heavyweight all Steel Extrusion Dies with positive push/pull actuation.
- Simple and fast, quick change dies are standard.
- Widest, single pass die offering of 16", 18", and 24" that save material used while reducing labor hours. Associated 16", 18", and 24" Glass Bead are available.
- Line widths of 4" to 24" are available.

### Variable Width Glass Bead System

- 4", 5", 6", 8", 12", 16", 18", 24", dual 4" and dual 6" dies (custom sizes upon request).
- 50 lb. capacity, positive direct-drive (no slip) bead drive mechanism. Variability in line widths with a single dispenser. Specialty 4" and 6" dispensers are available to place lines right next to curbing.

### Hand Torch

- Improved Hand Torch is standard and convenient.

### Lockable Rear Caster

- Lever activated straight lock or swivel with parking brake.

### Auto Ignition

- Effortlessly fire up the main burner.

### Compact Size

- L: 48" (122 cm) W: 30" (76 cm) H: 39" (99 cm) short wheelbase with a swiveling rear caster helps the 360MII produce the most intricate curved lines.
- Weight: at only 240 lbs (109 kg) the 360MII is lighter than "old school" aluminum hand liners.

### Optional Equipment

- Thermostat system
- Quick change 2nd color tank
- Individual, smaller 4" and 6" bead dispensers
- Double drop bead system
- Full lighting kit with green lazer, flood light, and rechargeable battery kit

① Unique lever to raise & lower pointer on the fly.

② Stronger, easier to adjust die storage arm.

③ Double drop hopper with shut-offs.

④ Burner controls moved to operator's position.

⑤ Enclosed propane tank.

⑥ Thermostat relocated.

⑦ Auto ignition of main burner.

⑧ Hitch attachment for self-propel addition.

⑨ Added "no-tool" adjustments.

⑩ Optional Double drop bead dispenser for improved reflectivity.

⑪ Relocation of bead system positive drive next to die.

⑫ Die LP hose clamps changed to permanent fittings.

⑬ All new pointer design reaches either side of die.

⑭ New "no-tool" bumper attachment allows easier die width adjustment and protects tank.

⑮ Larger and relocated tank handles allow easier and more secure tank handling.

⑯ Increased wind protection on main burner. Hooded exhaust ports eliminate reverse air flow for consistent heat.

⑰ Easier to grip hand torch minimizes mishaps.

⑱ Improved braided hand torch hose.
