

# TRANTEX MODEL TP1500 MOUNTED PREMELTER & APPLICATOR PACKAGE

The **TP1500 Thermoplastic Premelter Trailer** package offers the perfect solution for those looking for an all-inclusive mobile thermoplastic workstation. These custom built packaged systems include everything you need for high quality and high production thermoplastic application. The premelters themselves are the model of efficiency benefiting from Trantex years of premelter fabrication. The kettle design, agitation, burners, thermostat system, insulation type, and outer skin configuration all optimize the speed of melt and recovery time. Trailers are custom built from the ground up for each premelter giving you the opportunity to add any special features or sized to best meet your operational needs. The TP series includes premelter systems ranging from a single 1,000-pound tank models to dual 3,000 or even 4,000-pound tank capacity. Standard Packages with a 360M handliner that will be supplied with your choice of 4" or 6" extrusion die. The TP1500's combination of lightning fast start-up, improved operator safety, and enhanced quality ensures repeatable high quality service for many years.
