

Trantex T-Series Premelters are designed for users requiring professional performance at a value-based price. The T-Series are available in 720 lb. and 1250 lb. capacities, in both single and dual configurations. The unique combination of high capacity and low investment cost makes the T-Series Premelter an incredible economic value.

- Insulated steel tank boasts an innovative concave bottom. Thick walls retain heat while the increased surface area of the concave bottom encourage faster melt and recovery times.
- Unique agitator blade design lifts, pushes, and mixes the entire material column assuring more uniform thermoplastic temperatures.
- Large ring burner, thermostat control, and probe placement accurately control temperatures.
- Quick access drop-down burner simplifies burner maintenance to ensure optimum burner efficiency over the lifetime.
- Minimized footprint and reduced overall weight allows use in a greater variety of vehicles/trailers.
- Fork lift slots are conveniently located allowing rapid installation and removal from sides or rear of unit. Lift points are standard for overhead lift use.

### Optional Equipment

- Dual (two color) tanks
- Trailer or vehicle mounted
- Customized builds by request
- CA compliant engine
- Integral or remote powerpack

### T350M

Also available in a manually agitated 350 lb. premelter that is efficient and price point sensitive!

# TRANTEX TPT T-SERIES TRAILER MOUNTED STANDARD PREMELTER & APPLICATOR PACKAGE

Trantex TPT T-Series trailer packages combine the benefits of the T-Series Premelters with ruggedly built Trantex trailers. TPT trailer packages offers an economic and productive solution for those looking for a smaller all-in-one mobile workstation. Each trailer is custom built from the ground up giving you the opportunity to accessorize to best meet your operational needs.

The TPT T-Series includes 720 lb. or 1250 lb. capacities in single or dual configurations. Available with and without the 360MII handliner.

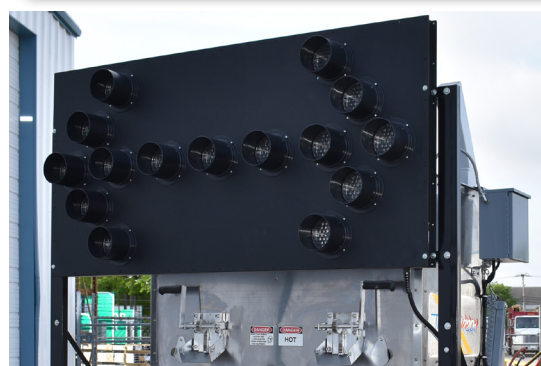

## Standard Packages include:

- 360MII handliner with your choice of 4" or 6" die
- Single 7,000 pound axle or dual 5,200 pound axle
- Single or dual tank models
- Folding ramp for loading handliner
- All steel trailer deck
- 2 bottle LP storage racks, plus one on the premelter
- LP Fired power supply

## Optional Equipment

- Hydraulic lift gate or lifting winch
- Rotating beacons, warning lights, arrow boards
- Die storage racks
- Spare tire and rim with trailer mount
- Fire extinguisher
- Mounted tool box
- CA compliant engine
