are your sidewalks a hazard?

Features & Benefits

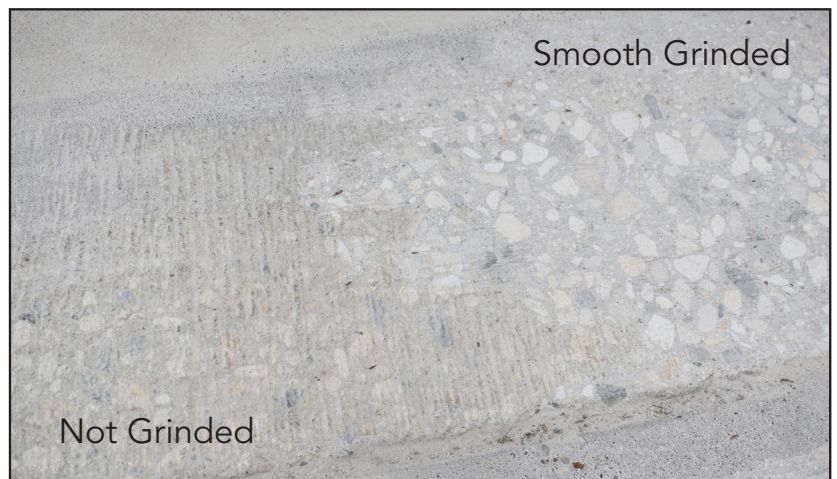

- Climbs over grass and lateral obstructions rather than bulldozing into obstacles
- Transitions seamlessly over high cracks, joints, and low spots
- Smooths edges where sidewalk meets the grass, curb, or parking lot
- Tall, wide tires ignore surface variations
- Four wheels add stability and constant correction with novice operators
- Quad stance allows the center of the machine to sit lower with no influence of a single front tire
- Available in 6.5 HP or 9 HP Honda engine

PCD round nano 8" drum

add textual info here

The surface shaving polycrystalline diamond cutters provide thirty times the cutter life as opposed to carbide cutters.
